No contact details

Olli Saranen (CEO at Avoset Oy)

"With Matti Kiviharju duties comes to completed with creative way. And always doing which is agreed in the contract. Matti is good for Software Development field ad Programmer and it is his future duty."

No contact details

Mikko Mäkelä (CEO)

"Matti is extremely capable to handle multiple tasks at the same time. He was the leader of our team in one big -web portal here in Finland. He has a strong leading skills and great persistence what comes to avoid the stress."

No contact details

Vili Vepsäläinen (Development Director and Education Planer)

"Matti Kiviharju accomplished ADP-team website development project for Edupoli (South-Uusimaa federation of municipalities) as remote work trainee.

He carried out his task as a project leader of trainee ADP-team very well.

In my opinion Matti Kiviharju carried out his tasks with commendable promptness and efficiency. He brought to work his own creative contribution and managed to develop his work in team to advance finishing the work"

Portfolio

Various Apps in Atlassian Marketplace

I developed all of these software alone. Technologies: Java EE, Velocity, Ext JS, PHP/Zend Framework.

<https://marketplace.atlassian.com/vendors/30865/i4ware-software>

Public Turnover on Atlassian Marketplace

This is my turnover on Atlassian Marketplace since 2012. Technologies: Laravel and Ext JS.

<https://atlassian-revenue.i4ware.fi/>

i4ware - SDK

This SDK is like Drupal but made by myself and team mates such as UX/UI designer. The front-end is made with React, and the back-end is with Laravel. However, this is not CMS this complete platform for tailored ERPs: https://github.com/foghorn-hash/i4ware_SDK

<https://saas.i4ware.fi/>

i4ware Software

WordPress site for own company. Technologies: MySQL, PHP, jQuery, JavaScript, and Bootstrap.

<https://www.i4ware.fi/>

Matti Kiviharju

My personal WordPress site. Technologies: MySQL, PHP, jQuery, JavaScript, and Bootstrap.

<https://mattikiviharju.i4ware.fi/>

Spin Underground Records

Static www-site of my record label. Technologies: HTML5/CSS3.

<https://www.spinundergroundrecords.fi/>

My Personal Software Development V-log

My personal V-log about software development on YouTube.

<https://www.youtube.com/channel/UCOujpZraDeTY9Jj8YOzFMMw>

Hobbies

YouTube, Techno Music, DJing, etc. I also like to go to Rave Parties and Techno Clubs. English writing/reading and speaking/listening in multiplayer PC games. I also like ASUS ROG Strix Model laptops. Reading 500-1000-page books to learn business-dependent things and programming with various languages. Doing my software projects in my home every day to learn more APIs, Frameworks, etc.

Info

I am an experienced senior developer with 22 years of experience in the software industry. My career began in the early 2000s, when I created static homepages on a contract basis for clients such as Anneli's Shoe Store and Pintatyö Terho. Later, I worked as a subcontractor for several advertising agencies. I initially chose entrepreneurship because it was easier for small advertising agencies (such as two-person teams) to purchase services via invoice rather than hire an employee for just 1-4 website projects. These projects typically lasted around 8 hours, and I was a valuable contributor when a graphic designer lacked coding skills.
